Real Woman, Has Curves

Arrojo making over a candidate's hair for the TLC show *What Not to Wear*

TGR 4000i

New York City's Arrojo Studio, where the stylist still cuts hair daily

Favorite Things

TGR hair-dryer. "It's everything you want in a dryer—the power, the heat, and you can turn the ionic feature on or off. Plus, it's lightweight, which is important because when you use a heavy dryer, you often stop before your hair is totally dry because your arm gets tired—and then you end up with frizz."
